Pande Gede Supada

Pande Gede Supada was born in 1949 in Singaraja, Bali. Supada has established a unique style of blending the sensitivity of impressionism with the bold techniques of an expressionist and abstract painter.

Supada is currently a lecturer at the Senior High School of Fine Art ("SMSR") in Bali. As an academia in fine art, Supada is firmly grounded in the fundamentals of artistic creation. His art is always bold and full of life and optimism. The texture of his works is rich, giving its audience a strong three dimensional feel while the colours and lines that he uses also allow the audience to have their own interpretation so as to enjoy the profound emotions of the subject matter.

At the age of 58, Supada is at the peak of his creativity. His rich life experience and positive mental disposition have combined into wisdom that only a matured and confident artist exhibits. His physical health and mental agility also allow him many years of experimentations and breakthroughs.
